To whom it may concern

Turk's Poultry were in the need for an independent training provider that could support our operation and deliver a specialised topic to employees, members of the quality team and management.

During the preparation work, I was kept well informed and was provided with plenty of opportunities to review and align the material delivered to ensure it was consistent with our practices on site. The material delivered was very relevant and the presenter was extremely knowledgeable of the topic. After the 2 days provided, staff were very appreciative of the material delivered and everybody walked away having learnt something new.

I'm happy to recommend the training services of Peter Barry and Pest Management Consultancy Limited. If you have any questions, feel free to contact me.

Yours Faithfully
