Hi Peter

Thanks for your detailed and thorough report. It was great to get an independent review and different perspective on our current plan.

It certainly met my expectations and I gained some valuable knowledge from it.

We are working our way through the recommendations that you have made and I'm sure that we will see a big improvement in our pest control.

It is something that we see value in doing from time to time, so we look forward to working with you in the future.

Kind Regards
Tracey

Hi Tracey,

Many thanks for expediting the payment, much appreciated.

Been meaning ask for feedback on the report I provided, if you have a moment.

What did you think – did it meet expectations?

Warm regards

Peter Barry
